GENERAL OBJECTIVE

The project aims to contribute to create the conditions for the development at local level of a learning context in pre-schools and schools which is able to meet the challenges posed by the recent migration waves.

SPECIFIC OBJECTIVES

- 1) To exchange good practices on the **organizational settings** facilitating **transition across the different educational levels** especially for those with a foreign background;
- 2) To reflect upon and adapt **solutions which can lead to learning spaces producing a faster inclusion** without jeopardize achievements of the whole class;
- 3) To identify **training needs of teachers** in relation to learning spaces and the specificities of multicultural classes and define a training path.
