A long trip, a deep experience

We arrived after a day trip (3 flights) in a white, kindly, spread city, surrounded by frozen lakes and sea, with a rarefied light, cold but welcoming

THINGS I LEARNED

The Institutions invest money

in furnitures, materials, technology, staff

Parents are parents, school is school

Educational co-responsibility with respect for roles

Preschools are important for Swedish Society

take care

calm

welcoming

cozy interiors, rich, varied

outdoor equipped, discovered, experienced

organization

attention and support to teachers

SCHOOLS LIKE HOMES

intimate corners and smaller specialized rooms.

Well equipped and furnished with care

Plants, lights, sofas, fabrics and curtains, containers and shelves for natural and technological materials and equipment.

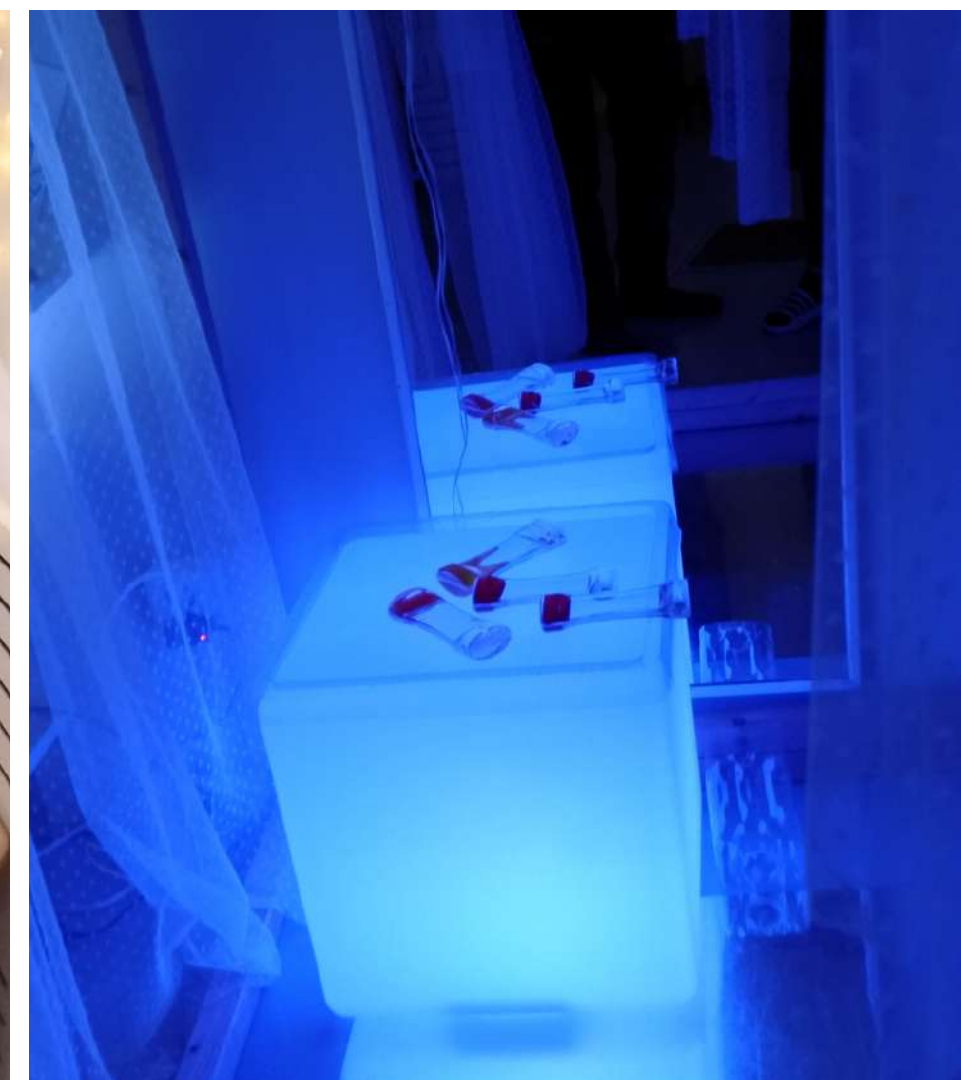

Full of pretty details to promote well-being and autonomy

EXCHANGE

Observing and asking, you will receive the gift of new discoveries.

And you can **offer the gift of your presence.**

RELATIONSHIP

Establish reach relationship with the colleague you share jobshadowing

Sharing trip, meat and drink, meeting, visits, opinions, photos, surprises (and much else)

The whole team

7 other colleagues from different Municipalities of the Emilia-Romagna Region were with us. Each town was a small group that lived a personalized visit consisting of 4 preschools in 2 different areas of the city. We only shared few moments, like the tech lab, dinner with the coordinator and a final greeting session. For the rest, we liked to put in common ideas and reflect during coffee or dinner time at the end of each working day.

Participants:

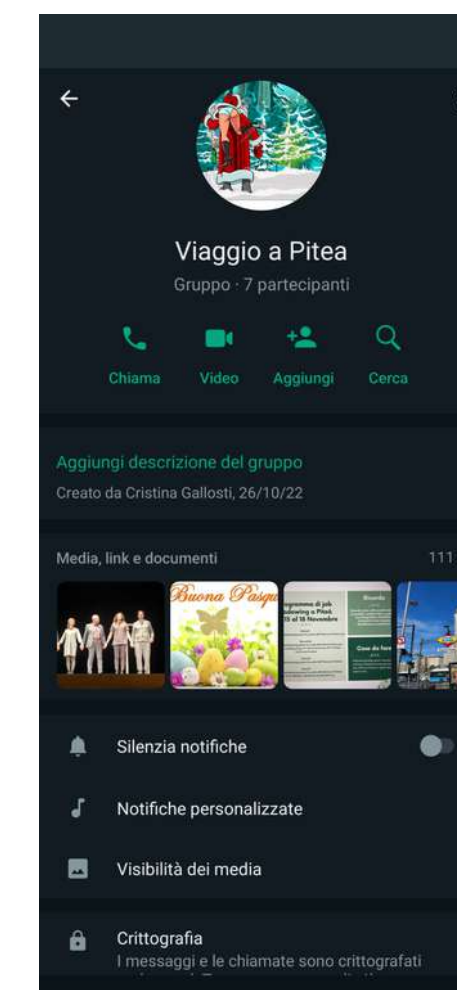

Cristina Gallosteri, Elisa Musoni, Ezio Castagna (Cavriago)
 Paola Forte, Carlotta Sabbatani (Imola).
 Debora Vasoli, Elisabetta Maccanelli (Parma)
 Erika Frigieri, Serena Rognoni (Scandiano)

We still keep in contact

CHANGE

Take with me

The discovery of other ways of life

The presence of contact points arising from observation and discussion

The ability to organize our work differently

My perception of cold has become different (don't be scared)

Ideas and solutions can be applied in my context, with some adaptations

(our context is different, with its own resources and limits, never forget!)

**we must keep dreaming
to plan a change**
